the 20th year since the Act on the Promotion of Specified Non-Profit Activities enacted after the Earthquake, several opportunities of survey were given and conducted by Hyogo Prefecture. By being involved in these opportunities (forums and related surveys), it enabled to capture the actual situation of networking during this period mainly from the perspective of the NPOs. In this survey, compared with the situation before the NPO law was enacted, the network surrounding NPOs has been expanded as a whole, and it was confirmed that inter-organizational collaboration has progressed in various ways in particular. On the other hand, the strong relationship with the local government has been one of the biggest impacts of the NPO law, but it is also clear that the asymmetric structure of such relationship is becoming an issue at the same time. Including the above, three articles have been published (e.g. quantitative analysis, historical	Kelo Associated Reposi
