Abstract	<p>本研究では、2022年2月に京都市陽明文庫において原本調査を実施、近衛家熙写本『幼学指南目録』1冊、明刊本『皇明制書』10冊、江戸中期写本『故唐律疏議』10冊など16部179冊を著録した。このうちの『幼学指南目録』は、不完全な写本のみが伝わる『幼学指南抄』の全貌が唯一知られる資料であり、古代公家漢学の実情を知る上で貴重である。また『皇明制書』は、明代南直隸鎮江府丹徒県の官刊本であり、江戸時代公家の明代政治制度の学習と、稀少明版蒐集の実例として注意される。また『故唐律疏議』は、近衛家熙が書入れと、一部補写を加えた写本であり、後に『大唐六典』の校刊に結びついた、家熙による唐代法制研究を構成する資料であることが判明した。これらは基礎研究とともに、デジタル化画像を取得公開し、広く共有すべき文献である。画像取得の方面では、準備段階での成果を踏まえ、南北朝刊本『集千家註批点杜工部詩集』2部13冊や、室町刊本『新編名方類証医書大全』10冊、明正徳10年序刊本等『大唐六典』4部40冊等、10部116冊のデジタルカメラ撮影に成功し、その全てを斯道文庫のストレージに収めた。このうちの『集千家註批点杜工部詩集』は、中世五山僧の中国文学研究の基礎文献であり、来日した元人による彫版である。また『新編名方類証医書大全』は、15世紀堺の豪商が実用のために明版を覆刻した医書であり、医学史、出版史上の貴重文献である。また『大唐六典』は、近衛家熙による唐代政治制度史研究の一環を成し、同書校刊の基礎となった校訂書入本として重視される。いずれも書誌学的研究成果に基づいて公開、共有すべき研究資料であり、その取得は大きな成果と言える。</p> <p>In February 2022, we conducted research on original materials at the Yomei Bunko Library in Kyoto, and recorded 16 titles in 179 volumes, including 1 volume manuscript "Yogaku Shinan Mokuroku" copied by Konoe Yehiro, 10 volumes publishment in the Ming dynesty "Huang mong zhi shu", and 10 volumes mid-Edo era manuscript of "Gu tang lv shu yi". Of these, the "Yogaku Shinan Mokuroku" is the only known complete catalogue of the "Yogaku Shinan sho," of which only an incomplete manuscript survives, and is valuable for understanding the actual state of ancient courtly Sinologies. The "Huang mong zhi shu" was published by the government of Tan tu County, Zhen jiang fu, Nan ji li, during the Ming dynasty, and is noted as an example of learning about the Ming dynasty political system and collecting rare Ming editions by Edo period court nobles. The "Gu tang lv shu yi" is a manuscript that Konoe Yehiro annotate and partially supplemented, and was later found to be a component of Yehiro's research on the Tang dynasty legal system, which led to the publication of the "Da tang liu dian". These are resources that should be shared widely through basic research and the acquisition and publication of digitized images. In the area of image acquisition, based on the results of the preparation phase, we succeeded in digitally photographing 11 titles in 116 volumes, including 2 copies in 13 volumes of the Nanboku-chou edition of "Ji qian jia zhu pi dian du gong bu shi ji", 10 volumes of the Muromachi edition of "Xin pian ming fang lei zheng yi shu da quan," and 4 copies in 40 volumes of "Da tang liu dian," including the 10th year of Ming zheng de edition, all of which were stored in the Shido Bunko. Of these, the "Ji qian jia zhu pi dian du gong bu shi ji" is a basic resource for the study of Chinese literature by medieval Gozan monks, and is an engraved edition by a former Yuan national craftsmen who came to Japan. The "Xin pian ming fang lei zheng yi shu da quan" is a medical treatise that a wealthy merchant in Sakai in the 15th century reprinted the Ming version for practical use, and is a valuable resource in the history of medicine and publishing. The "Da tang liu dian" was part of Konoe Yehiro's research on the history of the political system of the Tang dynasty, and is regarded as a valuable source of his later revising and publishing of the "Da tang liu dian". All of these are research materials that should be made public and shared based on the results of bibliographic research, and their acquisition is a significant achievement.</p>
